

Hi there!

Super excited to have you join the 2-Day Generative AI Mastermind! **This is a list of all the tools that we will be using in our workflows over the course of the 2-Day Training Program.**

We suggest you to have this document open while you attend the training from your **Laptop/Desktop** - so that you can participate with us!

Looking forward to a great weekend! Please write to hi@outskill.com if you have any questions.

(Link to the session will be shared on Email. You calendar must have been blocked already. Please keep an eye)

Tool Name	What does it do?	Tool Link
Whispr Flow	Converts speech to text in real time across apps. Helps users dictate, format, and edit content hands-free.	https://outskill.link/wisprflow
Gemini	Google's AI assistant integrated into Search and Workspace. Provides conversational, multimodal, and contextual help.	https://outskill.link/gemini
Emily	AI tool for engineers to scaffold, deploy, and manage ML or microservice projects. Simplifies orchestration and deployment.	https://outskill.link/emily
Fireflies	Records, transcribes, and summarizes meetings automatically. Integrates with Zoom, Meet, and Teams to extract insights.	https://outskill.link/fireflies
ChatGPT	OpenAI's conversational assistant that can chat, code, write, summarize, and brainstorm across domains.	https://outskill.link/chatgpt
Claude	Anthropic's AI model focused on safe, interpretable, and creative conversations with high contextual reasoning.	https://outskill.link/claude
Phot AI	AI-powered tool for editing, enhancing, and generating photos or visual content. Great for quick creative visuals.	https://outskill.link/phot
Supergrow	AI marketing platform to help grow leads, optimize campaigns, and accelerate audience engagement.	https://outskill.link/supergrow
Perplexity	AI search engine combining live web data and LLM reasoning to give factual, cited answers.	https://outskill.link/perplexity
Writesonic	AI content generation platform for blogs, ads, and marketing copy. Boosts productivity for writers and marketers.	https://outskill.link/writesonic
Numerous AI	A multi-purpose AI platform offering various automation and generation tools under one suite.	https://outskill.link/numerous
Genspark	Generates creative ideas, articles, and media using generative AI — a “spark” for inspiration.	https://outskill.link/genspark
Suno	AI music generator for composing songs, jingles, and soundscapes from text prompts.	https://outskill.link/suno
Notebook LM	Google's AI research assistant that summarizes, queries, and connects your notes and documents intelligently.	https://outskill.link/notebook-lm
Social Sonic	Helps create, schedule, and optimize social media content using AI-driven insights.	https://outskill.link/socialsonic
Bolt	Developer tool or automation assistant built for fast prototyping and deployment of apps or workflows.	https://outskill.link/bolt

Vapi	Voice or visual API platform enabling AI calling agents or multimodal experiences.	https://outskill.link/vapi
Hey Gen	AI video generator that turns text or scripts into realistic avatar videos with voice and lip sync.	https://outskill.link/heygen
Chronicle	AI-powered tool for journaling, storytelling, or knowledge management to capture key moments.	https://outskill.link/chronicle
Runway ML	Creative AI suite for video editing, image generation, and media production using machine learning.	https://outskill.link/runwayml
Midjourney	Text-to-image model producing high-quality, artistic visuals for creators and designers.	https://outskill.link/midjourney
Kling	Emerging generative video platform focusing on ultra-realistic, cinematic outputs.	https://outskill.link/kling
Krea	AI design and art creation tool enabling rapid visual exploration and creative experimentation.	https://outskill.link/krea
Leonardo	AI art platform for creating game assets, illustrations, and concept art using text prompts.	https://outskill.link/leonardo
Eleven Labs	Industry-leading AI voice synthesis platform for lifelike text-to-speech and dubbing.	https://outskill.link/elevenlabs
Higgsfield	Advanced AI company developing realistic 3D / video generation technology for creative industries.	https://outskill.link/higgsfield
Humanic AI	Focuses on human-centric AI for personalization, empathy modeling, and user understanding.	https://outskill.link/humanic
Magnific AI	AI image upscaler and enhancer that adds detail, improves resolution, and refines visuals.	https://outskill.link/magnific
Lovable	AI design assistant helping teams quickly create delightful, user-friendly web apps.	https://outskill.link/lovable
Emergent	AI discovery engine identifying emerging trends, ideas, and insights from large datasets.	https://outskill.link/emergent
Happenstance	AI idea generator fostering serendipitous discoveries, creative prompts, and connections.	https://outskill.link/happenstance
Granola	AI note-taking assistant for meetings — transcribes, summarizes, and organizes discussions.	https://outskill.link/granola
Crystal	AI tool that analyzes personality and communication style to improve interpersonal effectiveness.	https://outskill.link/crystal-knows
Lyzr AI	AI platform for analytics and automation — “laser-focused” insight generation and workflow optimization.	https://outskill.link/lyzr
Rocket	Automation tool that accelerates tasks, launches workflows, or optimizes processes using AI.	https://outskill.link/rocket
Replit	Collaborative online IDE with AI code assistance for real-time coding and learning.	https://outskill.link/replit
Perplexity	AI answer engine combining search, web retrieval, and LLM reasoning with citations.	https://outskill.link/perplexity-comet
